## Learn English

In today's global community learning the English language has never been more important. It isn't just useful – it's essential.

Whatever you want to achieve in your life, we will help you make it happen. All our courses are designed to give you the practical language skills you'll need to succeed.

That's why we're continually updating our courses and programmes. This year, we're proud to introduce a new **Embassy Diploma for University Entrance**, offering guaranteed entry and academic credits to a range of partner universities. Also new this year is our **Pre-Masters Course**, essential preparation for the demands of post-graduate study.

Learning English in an English-speaking country is the only real way to learn the language effectively. You'll become more than just fluent in English though; you'll gain great friends, a lifetime of memories and an international perspective on the world.

Whatever course you choose, I wish you success in achieving your language learning goals, and look forward to welcoming you to an Embassy school soon.

Many of our teachers are experienced specialists, qualified to teach international students using a wealth of exciting and modern teaching techniques. They will ensure all your lessons are enjoyable and extremely rewarding. They will help you to achieve the best possible results through a combination of friendly encouragement, one-on-one attention and Embassy CES-developed teaching methods.

### Wireless access worldwide

All our schools offer wireless access to email and the internet, so you will have personal access to a wealth of online learning resources. You're also always just a click away from your friends and family back home. So if you bring your own laptop, you'll always be connected.

### Modern and enjoyable lessons

You learn more effectively when your lessons are carefully planned and well focused. At Embassy, learning is fast and effective because our lessons are varied and dynamic. Ideas are easier to grasp, the English language is easier to learn and progress comes more quickly. You will take part in classroom discussions, work on projects with other students, simulate real-life situations with role-play and practise new skills in our well-equipped self-access centres.

### Individual attention

A key to successful learning is the amount of individual attention a student gets from their teacher. We know that when classes are smaller everyone benefits enormously. Our classes involve direct interaction between you and the teacher. Depending on the course you choose your classes will range from 8 to 16 students. This way you will get the most out of your lessons. You can ask questions when you want and receive the full attention of your teacher when you need it.

### Course Assessment

The Diploma award has three grades: Distinction, Merit and Pass. The better your pass rate the higher the grade of Diploma will be, and the wider the choice of colleges and universities to which you can gain admission.

Continuous and termly assessment is a very important aspect of this course. The method of assessment varies from course to course but might include closed tests, an end of term essay, book reports, oral presentations and projects.

### Course structure and content

# Internship

“ I learned a lot about New York and how work is done in the USA. There are a lot of differences between working in Switzerland and working here. It was a great experience. This programme is a great opportunity to get an impression of how companies are run here. ”

**Franziska Dardel**  
Placed at NYC & Company

## Gain new work skills and experience

An Embassy Internship allows you to combine your language course with the unrivalled experience of working in English. You will develop your English and business communication skills in a real, though unpaid, working environment.

## All the help you'll need

Before you start work, we'll help you to perfect your résumé. We'll also assist you with your application and develop your interview skills. After you start your internship, we'll be there to monitor your progress and ensure things run smoothly.

## Your Internship in England and the USA

In England and the USA, once you've spent four weeks on an Intensive Course and have reached Upper-intermediate level, you're ready to start your internship at one of dozens of great companies. The number of weeks' study will be the same or more than the length of internship. In England, your internship will be part of a sandwich course and you'll develop your language skills even more with further Intensive English at the end of your work placement.

## Your Internship in Australia

In Australia, you're able to take your internship on a Working Holiday Visa, making things straightforward for you. Once you've had four weeks English preparation, you can gain stimulating work experience with a wide choice of excellent Australian companies.

## Diploma courses and Internships

An internship makes an excellent addition to the Diploma of English course (see page 28) and is particularly useful if you want to take the Business English stream. Work placements usually take place upon completion of the third term, when your English language skills are at their peak.

We have placed thousands of students on internships in many industries, including:

Accounting • Administration • Advertising • Architecture • Business Communications  
Computer Services • Education • Fashion • Finance • Graphic Design • Hospitality • Insurance  
International Trade • Law • Marketing • Music Industry • Printing • Public Relations • Retail Sales  
Social Work • Travel & Tourism

...and more!

“ I've had a fantastic time here in Cairns. As well as improving my English I've had diving lessons from a really great instructor. Last week, I explored the Great Barrier Reef for the first time. Amazing! ”

# support with Embassy CES

To enjoy and benefit fully from your experience with us, you need to be fully supported. This comes in many ways: we assist and guide you with your studies, organize your arrival and departure, provide a comprehensive insurance plan and advise you about the day-to-day issues you will face during your stay.

## Before you leave home

As soon as you enrol, our support begins. This means we will provide you with all the information you need about your travel, study and accommodation arrangements. By the time you arrive in your destination country, you will be properly prepared and ready to start.

## During your first few days

On your first day, we make sure that you know everything you need to about your school, staff and surroundings. We also give you a special Embassy CES handbook to keep, which will answer many of your questions. We have expert student counsellors at all our centres to help you with every aspect of your course.

## 24-hour-a-day support

During your time with us you will feel completely safe and supported. This sense of security will enable you to focus on enjoying the whole experience. We even issue all our students with a special 24-hour emergency telephone number – meaning you have access to help from Embassy CES staff night and day.

## StudyCare insurance

StudyCare is a comprehensive insurance plan administered by ACE Insurance. It has been specially created to meet the needs of students travelling abroad to study. From the day you arrive until the day you go home, this excellent insurance plan will provide you with a full range of protection. For full details refer to the StudyCare insurance booklet.
