Welcome message from our Principal

International communication - we just love it!

What a blast it is to see Impact students improving their skills in English every day.

With the English Only policy, our students from over 25 countries quickly make friends from around the world and improve their English even faster than usual, and it is a thrill to meet so many people from so many different cultures and backgrounds.

The dynamic atmosphere is generated by students who are passionate to reach their full potential and to secure a

great future through improved English language skills.

It is wonderful to feel that we have an impact on students' lives, and in turn, they play an important part in ours. We especially enjoy assisting our students towards success in beginning their studies at university, finding new jobs, or setting off on new adventures around the world.

My best wishes to all our students - past, present and future. Hope to see you soon at Impact.

"I was studying at a few English Language Schools in Australia before, and Impact is by far the best one. It offers many advantages: it is located in the city, it has clean, bright and comfortable facilities as well as big classrooms, friendly and experienced teachers, efficient staff, computers with free internet access, and finally, free activities during the week and daytrips at the weekend. Impact also has an English-only-policy where students from every country can speak only English in the college. That means there is more chance of mixing with all students regardless of nationality. I made many good friends from all continents. I was especially impressed that every single staff member knows you by name, and this creates a very familiar and comfortable atmosphere to study in!"

"The Business English course helps us understand how to communicate in English at work. The course is very practical and our teachers are very experienced and have great knowledge about the corporate world."

- Thiago, Brazil

"Everyday we learn about specific situations that happen only in the business field. We learn about presentations, conversation and telephone skills and everything that is related to business. My favourite activity was an excursion, where we visited a beer factory to discover how they run the company and later, we discussed what we learned in class."

When I first went to my coffee training at William Angliss, I was very excited and I had a great time! There are a lot of opportunities to practice as well as learn about coffee making. "The teachers are very attentive and charismatic. The course is difficult, but at the same time our English skills progress rapidly. I like this course because it covers everything: reading, writing, listening and speaking. The class is small so we can ask more questions and talk more with the teacher. Also, the class runs well because everyone has the same level of English, which facilitates communication between students. I like the fact that we have two breaks instead of one, as this way we do not get too tired and we can learn more."
